ALL ABOARD FOR A HAPPY
PEACEFUL AND PROSPEROUS

1994

N. J. E. S. OFFICERS

President - Secretary:

George Skic, P.O. Box 337, Pennington, N.J. 08534

Vice President:

R.K. Burke, P.O. Box 1005, Lakewood, NJ 08701

Treasurer:

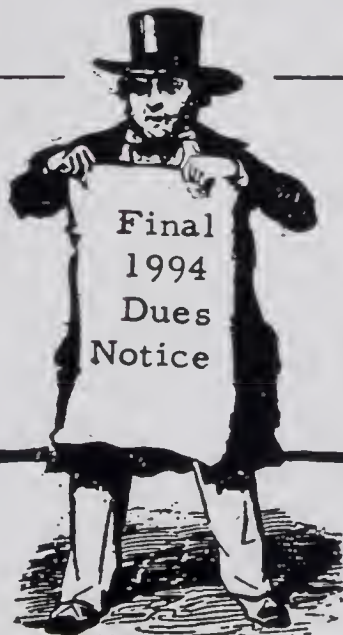

Dennis Helmer, 112 Carlton Ave., Westmont, N.J. 08108

Editor:

Al Zaika, P.O. Box 65, Bellmawr, N.J. 08099-0065

Publicity Chairman:

Steven A. Middleton, 9 Rock Ridge Road, Denville, N.J. 07834

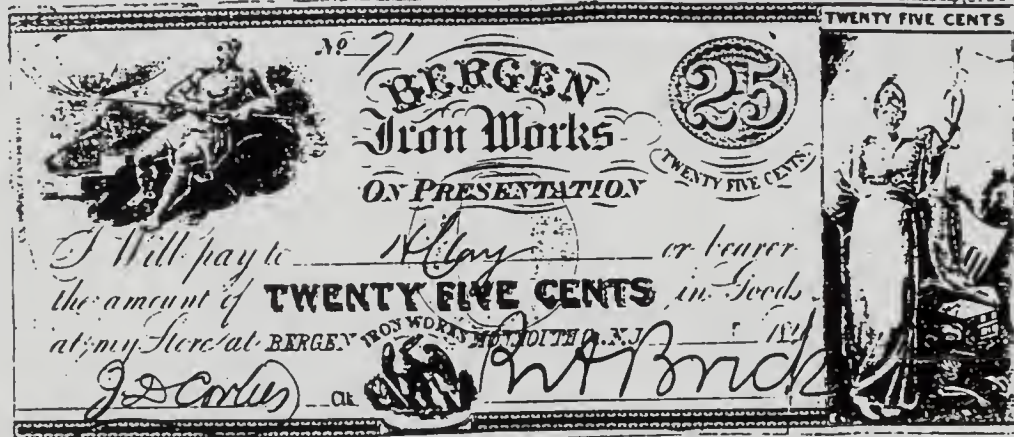

If you haven't renewed your membership for 1994, please don't delay and remit your payment now. Dues are still only \$6.00 and you ought to consider life membership for \$60.00, which can be paid in several installments. Make your check payable to N. J. E. S. and forward it in the enclosed envelope. Thanks for your cooperation.

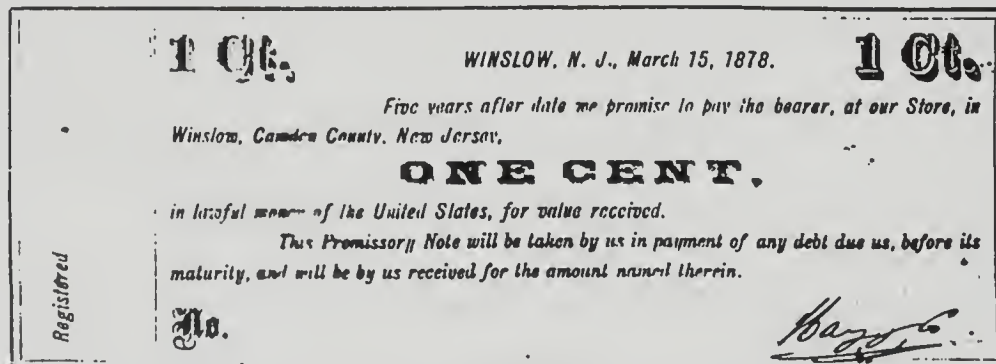

Exonumia From Your Neighborhood, By David D. Gladfelter

(continued from last issue).

Bergen Iron Works Store, now part of Lakewood, Ocean County. As per Bill Dewey's 1989 articles of the Bergen Iron Works, this early forge and furnace gave its name to the town which later was known as Bricksburg, and today is part of Lakewood. In 1840 when these notes were engraved, Ocean County had not yet been separated from the southern part of Monmouth County, hence the Monmouth County designation on the notes. a 25 Cent note is shown below, there was also a 6-1/4 Cent note in the St. Louis sale. In the same year, 1840, the Works issued several varieties of copper and brass tokens: both scrip and tokens were probably issued to the employees of the Works for use at the company store, which lasted until 1865. The notes have the imprint of C. C. Wright, noted and respected medalist and banknote engraver.

Hay & Co., Winslow, Camden County; Wait lists several denominations of notes issued by this company, owners of the Winslow Glass Works, in 1865. The note shown below is a later issue, dated 1878, and is known as a "post note", since it was not payable on demand, but five years after the date of issue. The one cent small denomination note is popular among collectors, but not unusual for glass work scrip.

Union Works, Port Elizabeth, Maurice River Township, Cumberland County. All of the notes listed by Wait for this firm are very rare; the \$2. note shown below is an unlisted denomination. Of interest is the fine print above the value designs, which states that the note is "Payable between the hours -- of 9A.M and 3P.M." Not much is known about this South Jersey glass works. Shirley R. Bailey tells us that the works were built prior to 1811 by Jacob and Frederick Stanger and William Shough, but production ceased after litigation in 1814. The notes are dated 182__ on the plate, and may have been issued in connection with the liquidation of the business.

(the banknote is illustrated on page 604)

 Tom O'Mara, 98 Tatum Dr., Middletown, NJ 07748

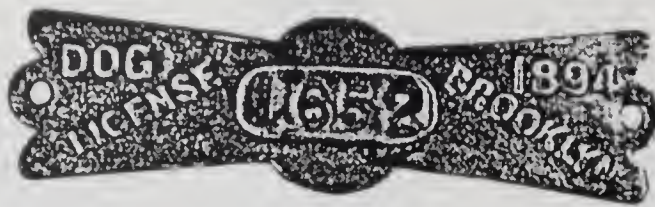

IN MEMORIAM

After a long battle with a serious illness, member George Ganter of Media, Pa. died at age 55. George, a long time friend, was an advanced specialist of George Washington exonumia, Pennsylvania tokens and John Wanamaker memorabilia. My last meeting with him was at the ANA convention last year and although in a wheel chair, he still maintained his sense of humor and avid pursuit of his interests. He will be missed by all who were acquainted with him. Our prayers and sympathy go out to his widow and family.

The Newark Museum has provided NJES with a small quantity of two different postcards. One card illustrates the New Jersey Colonial coppers and the other card shows an 1863, Newark, 5 Cents banknote and several NJ Civil War tokens. The cards are free and if you would like two of them, please send a 29¢ stamp to Editor Al Zaika, P.O. Box 65, Bellmawr, NJ 08099-0065

DEADLINE FOR NEXT ISSUE -- MARCH 15th

PRE-1900 DOG LICENSE TAGS
BY
WILLIAM J. BONE D.V.M.

Book Review by Curtis H. Judge

The reviewer usually confines his reviews to those books that deal directly with the token arena of the exnumia field. In this review we will divert to a growing field of collecting interest - Dog License Tags. A new extensive work has just been published that will be of interest to both the License Tag collector and the person building an exnumia library. Other than two brief foreign museum catalogs from Holland and Belgium, Dr. Bone's work is the first effort to catalog this area of collecting interest.

William J. Bone D.V.M. has released his new work titled "Pre-1900 Dog License Tags." The hard cover volume is in the 5 1/2" by 8 3/4" format printed on high quality semi-gloss stock. Numerous photos of the tags described add considerable interest to the 218 pages of text and listings. The author provides substantial background information about the history and use of early dog tags and their manufacturers.

Information is well presented in the listing portions, with the author having devised a unique method of assigning "catalog" numbers to the various pieces listed. All entries are listed by state or country, issuing authority and year of issue. The oldest known tag from each issuing source is listed first, followed by a photo or description of the tag. Planchet shape, size in millimeters, material and rarity are also provided for each entry. A total of 850 worldwide tags produced prior to 1900 are included. A statistical Census of the various states and issuing authorities is included to further help the collector define the rarity level of any acquisitions or items in a collection.

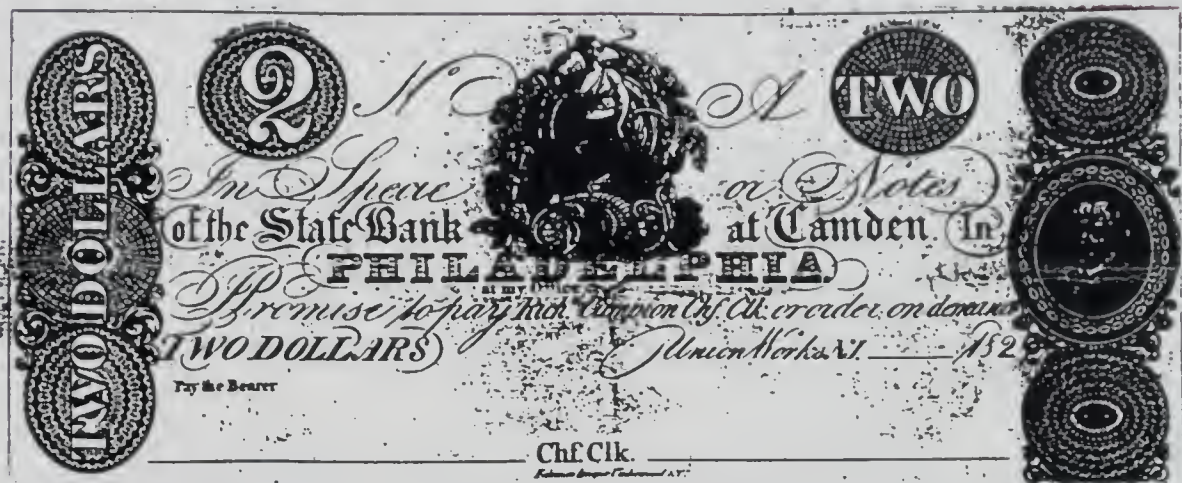

The author has covered another area of concern that will be of interest to the beginning and experienced collector, forgeries and modern reproductions of antique tags. He covers some of the methods used to fake old tags and offers several photos of bogus items. This chapter alone could save the collector many dollars. Information about the I.S.L.A.C. (The International Society of Animal License Collectors) is thoughtfully included. They may be contacted through the author.

Autographed copies of the work are available directly from the author for \$25.00 plus \$2.50 postage and handling.

William J. Bone D.V.M. Route #3, Box #14 Clinton, Ky. 42031

Wanted: Interested in anything related to the U.S. Marine Corps. Please send description and price wanted. Thank you. Rodger E. Hershey, 175 Crescent Hills Rd. Pittsburgh, PA 15235

From the President's desk...

Greetings to all our friends!

I hope this message finds everyone healthy, and with pleasant memories of the holiday season. The early months of the new year afford us some free time for our hobby. Since my family and I completed our new home recently I too am turning once again to my hobby. This leads me to some noteworthy items.

As you know, NJES has been without a secretary for quite some time. So Esther, my dear wife, has accepted my appointment of her to serve in that capacity. Welcome Esther!

Our friends at Great Eastern Numismatic Association (GENA), have invited your officers to conduct a board meeting during their convention in the latter part of February. If you have questions, concerns, or ideas for us to consider, contact one of the officers regarding your topic, prior to the board meeting, so we can discuss it and get back to you.

Lastly, it has come to my attention that we as an organization possess a considerable amount of knowledge on the subject of New Jersey tokens and related exnumia. Your president feels we should seriously consider formally publishing a concise listing of all known NJ tokens, for the benefit of collectors and dealers alike. Afterall, isn't this the kind of thing we should be doing? Let us know what your thoughts are on this matter before I appoint a committee to check this out.

Best wishes for a prosperous New Year.

George Skic

MORE NEW JERSEY AMUSEMENT TOKENS

by Bob and Bill Schopp

New Jersey arcades continue to put out new tokens. Since our article in the September 1993 issue of JERSEYANA, we have continued traveling around the State looking for new amusement tokens. We have located close to 2 dozen new tokens.

Batting cages seem to be popping up around the state. Unfortunately most use stock tokens or franchise tokens such as Grand Slam or Sports Park U.S.A. In Beach Haven there are batting cages called Upper Deck and they have a brass token of their own. It is 28 mm in diameter like most battling cage tokens.

In Bricktown, Ocean County, we found a birthday party/arcade/batting cage place called P.W. Candy's Playland. It is located on Chambers Bridge Road. They have 2 brass tokens. One is for video games and the larger is for the batting cages. There is also a Chuck E. Cheese place nearby which uses the standard C.E.C. tokens.

We came across a nickel plated token from Casey's Restaurant in Clifton. There is a brass version of this token cataloged. We did not try and locate this place yet. Do any of our members know what they use this token for? Do they have arcade machines?

In the last article we mentioned a new arcade/birthday party place in East Hanover on Route 10. They use a 25 cent brass token for the video games and a larger white metal token (\$1) for batting cages and other activities. The first batch of tokens gave the name as Sports Are Us but the sign says Sports "N" Games. Their new batch of both tokens uses their correct name.

In Englewood in Bergen County, there is a billiard club/arcade called Billiard Club on Route 4 that uses a brass token for its video machines. There are batting cages in the same building but they use a stock token.

In Green Brook in Middlesex County on Route 22 there is a new childrens birthday party/childrens play center called Romp Around. They use a brass token for some arcade type games. This place charges admission and is aimed at younger children.

There is a new arcade that has already closed. It used two tokens calling themselves "The Kings of Video." This arcade was located at the Great American Flea Market on Route 9 in Howell Township. One token was brass and the other was nickel plated.

Great Adventure in Jackson Township, Ocean County, came out with a new brass token in 1993. The tokens are paid out by coin-fall, slot, and poker machines. This token is not dated like the 1992 token. Perhaps they will have another new one this year.

Jersey City and Passaic have billiard parlor/arcades that use the same brass token. On one side it says Billiard Spectacular, 401 Palisades Ave, Jersey City, NJ. The other side says Rack N' Roll Billiards & Game Room, 212 Washington Pl., Passaic, NJ. We visited the Jersey City place and it not in the best part of town.

We search the telephone directories at the local library looking for places that may use tokens. On our trip to Jersey City, we stopped at an arcade in North Bergen on Bergenline Avenue. It is a combination pizzeria/arcade. Their one brass token says Video Magic, Big Mouth hoagie & pizza. We had a good pizza lunch there.

In the Menlo Park Mall we found an arcade called Primetime Playhouse and they use a brass token. This appears to be a franchise operation and the town is not mentioned on the token. There was a sign in the arcade indicating that Taco John's in the food court gave out a token with each sandwich which could be exchanged for some Primetime tokens. We got a couple Taco John's tokens and they are aluminum, mention Menlo Park but do not indicate their purpose except to call themselves Pete's Exchange Token. Perhaps they can be redeemed at other places.

Primetime is apparently giving Maglione's Game Room some serious competition since they have dropped their token prices. Maglione's is on Route 22 and is combined with there Italian ice store. The Italian ice is excellent. Maglione's brass and nickel plated tokens are both cataloged but what is interesting is that the nickel plated token is a bonus token. If you get a nickel plated token from the change machine you can turn it in for 15 brass tokens.

On Hanover Avenue in Morris Plains we found yet another birthday party/arcade/batting cage place. This one is called Stadium Club of Morris County. They have their own brass token for the arcade but use Sports Park U.S.A. tokens for their batting cages.

Rocco DiGiacomo told us about another birthday party/childrens play place on Route 38 in Mount Laurel called Fun Zone. They have 2 tokens. A brass one for video machines and a larger nickel plated token for "activities."

Rooco also tipped us off to another birthday party/childrens place in Turnersville. We checked it out and it is called Totally Tubular and they have a nice brass token. They said that they are not a franchise operation so this token should be cataloged as New Jersey even though they don't list their town or state on the token. Totally Tubular is located in Cross Keys Common at 2091 Black Horse Pike.

In Point Pleasant Beach, Jenkinson South Family Arcade has come out with a new 5 point aluminum and a 25 point gold aluminum token with numbers on both sides. It is not known if they will also be getting a new 10 point token. Frank's Fun Center now has a nice looking new 50 point brass token in a few of their coin-fall machines.

North Wildwood had a couple new tokens that differed only in having a RWM mintmark from older tokens. Ed's Funcade had a new aluminum token. Gateway 26 arcade had a new gold aluminum tokens like the aluminum token we mentioned in our last article.

In Wildwood, the only new token we found was a gray anodized aluminum token from Variety Corner Arcade. This is the first gray anodized token we have seen. It helps keep your hand cleaner.

We visited Sports World Amusement Park in Paramus on N.J. Route 17 that we mentioned in our last article. It turns out they have four different tokens. There are two brass and two nickel-plated brass tokens. One set has a RWM mintmark on the reverse and one set does not.

In Seaside Heights, Henry's Playland arcade closed at the end of September 1993. This was the last of a chain of 5 arcades. We did pick up some 50 point brass and blue aluminum tokens that we had not seen before. We wonder who will open up there this summer.

At a coin show we picked up a brass token from Timeout Family Entertainment Center located at Broadway and 48th Streets in Union City. We have not visited the place. The token is somewhat worn and may not still be in use. We don't know if this is part of the Timeout arcades that replaced the Space Port arcades in most of the area malls. The mall Timeouts sometimes give out brass tokens with no town names for each A or B on report cards brought in.

If anyone has news of new amusement tokens in use in New Jersey we would like to hear from them. If you are looking for a low-cost exnumia to collect, you might want to consider amusement tokens.

TREASURER'S REPORT

CANADIAN COMMUNION TOKENS 1ST EDITION

Edited by W. K. Cross

Book Review by Curtis H. Judge

The Charlton Press in Toronto, Canada has just published a new token volume that will become the standard reference work for the collector of Canadian communion tokens. This book is by far the most comprehensive and detailed available far surpassing the previous works by Bowman, Cresswell, Leroux, McLachlan and MacLennan.

The book is published in soft cover, composed of 270 pages in a 5 1/2 by 8 1/2 inch format. Quality of the paper used and the detailed photographs of the various types of tokens are both excellent. Almost every token described in the reference is photographed which is a big plus to this reviewer.

Organization is divided by province, with each specific church having its own section. Tokens were found for the provinces of Newfoundland, Prince Edward Island, Nova Scotia, New Brunswick, Quebec, Ontario, as well as Canadian churches located on Caribbean islands. Another section is devoted to tokens that are generic in nature. These types were produced for churches that did not want or could not afford to have a specific token minted for their congregation. Another feature that the collector of this type token will find very useful is the detailed cross reference chart at the end of the book. Previous catalogs by the authors mentioned above are cross referenced by their own specific catalog number and the new Charlton catalog number.

The individual listings are very comprehensive with both information on the specific token as well as history of the issuing church and pastor if known. Metallic composition, size, shape, weight, edge treatment and die alignment are studied for each token. Variety of tokens is extreme running from crudely hand stamped tin items through beautifully engraved machine struck silver pieces. A valuation guide in two grades is also included for each token.

The sacrament "communion" was usually dispensed twice a year in the spring and fall. Many members of the congregation came from long distances. They would arrive on Wednesday to prepare for the event which started on Thursday and ended with Holy Communion on Sunday. It was at the close of the Saturday service that the tokens were passed out to deserving members. On Sunday the tokens were collected from the participants before they were allowed to partake of the sacrament. Collection of the tokens was always carefully attended and collectable examples of many types can be quite difficult to obtain.

The book is priced at \$19.95 plus \$3.00 for postage and handling in U.S. f. Order from The Charlton Press, 2010 Yonge St., Toronto, Ontario M4V 1Z9

New Jersey Token/Medal Show

The New Jersey Token and Medal Show will be held at the Baltimore Convention Center June 24-26, 1994. Held in conjunction with the Atlantic Rarities Exposition, this popular show will draw up to 50 collectibles dealers from the immediate area and from surrounding states, and other far-flung locations such as Florida, New York, California, Iowa, Indiana, Ohio and Michigan. Among the various areas of collectibles represented are tokens and medals, Americana of every type, such as Civil War artifacts, early advertising signs and political items, old toys, sheet music, comic books, ephemera, coins, glass, baseball cards: every imaginable "small" collectible antique.

The Atlantic Rarities Exposition is a joint effort of the American Numismatic Association and the Maryland State Numismatic Association. This impressive three day show will appeal especially to collectors of coins and paper money, but also to those who pursue related collectibles.

The Casino Chip and Gaming Token Collectors Club will have a regional meeting at the show Saturday afternoon, June 25.

H. Joseph Levine of Presidential Coin and Antique Co. has planned an exceptional auction of tokens and medals to be held in conjunction with the show. The public auction is tentatively scheduled for 7:30 P.M., Saturday, June 25. For further information call Presidential at (703) 354-5454.

Dealers or collectors seeking more information may contact Paul A. Cunningham, Box One, Tecumseh, MI 49286, or call 517-423-8951.

NJES GENERAL MEETING

A meeting will be held at the East Coast Expo 94, Sept. 10, 1994, Meadowlands Convention Center, 355 Plaza Drive, Secaucus, NJ 07094. Time and location of the meeting room will be posted at the Expo. If you have any items to trade or wish to donate anything to the auction, please bring them to the meeting. Our members in the northern part of the state should make an effort to attend and meet our fellow collectors and officers. "Ya Better Be Dere".

A Loud Salute and Warm Welcome To A New Member.

David Cerull, Box 992, Milwaukee, WI 53201
David collects tokens, medals and firemen's service awards.

MINUTES OF 1994 ANNUAL MEETING

July 9, 1994, GSNA Convention, Piscataway, NJ

Attendance; 15 members and 3 guests.

Officers present; George and Esther Skic, Steve Middleton and Al Zaika.

Business meeting; Treasurers report showing a balance of \$3,773.35 on hand, was read by Al Zaika and accepted as read. Al also reported that our membership consists of 2 honorary life members, 35 life members and 81 regular members.

Old business; Al Zaika reported that work has begun on the proposed NJES membership directory and requested that members cooperate in this endeavor. Steve Middleton discussed his efforts as publicity chairman and made suggestions for future NJES publicity.

Minutes of the March 11, 1994 board meeting was read and accepted.

New business; Steve Middleton mentioned plans for a NJES meeting at the East coast Expo in September, 1994. (details are shown elsewhere).

Since GSNA will celebrate its 20th year and NJES will celebrate its 15th year in 1995, Archie Black suggested that a joint commemorative token be issued for both events. A favorable response was received for this proposal and Archie was advised to pursue this further.

Election of officers; President - George Skic; Vice Pres. Steve Middleton;
Treasurer- Dennis Helmer; Secretary - Esther Skic;
Reappointed Editor - Al Zaika.

Presentation; David Gladfelter gave an excellent talk and slide presentation on the History of Early New Jersey Bank Notes and Scrip. David was presented with a NJES Award Certificate.

50-50 Drawing; Joe Pecorino was the lucky winner of \$31.50, with a like amount going to our treasury.

Auction of donated items; David Gladfelter, Bob and Bill Schopp, George Skic and Al Zaika donated various items that brought in \$24.75.

Meeting was adjourned at 2:15 PM.

Many thanks and appreciation to all who attended the meeting, purchased 50-50 tickets and donors of the auction items.

DEADLINE FOR NEXT ISSUE - Sept. 30th.

The Shepherd's Home of Haddonfield, NJ

By Al Zaika

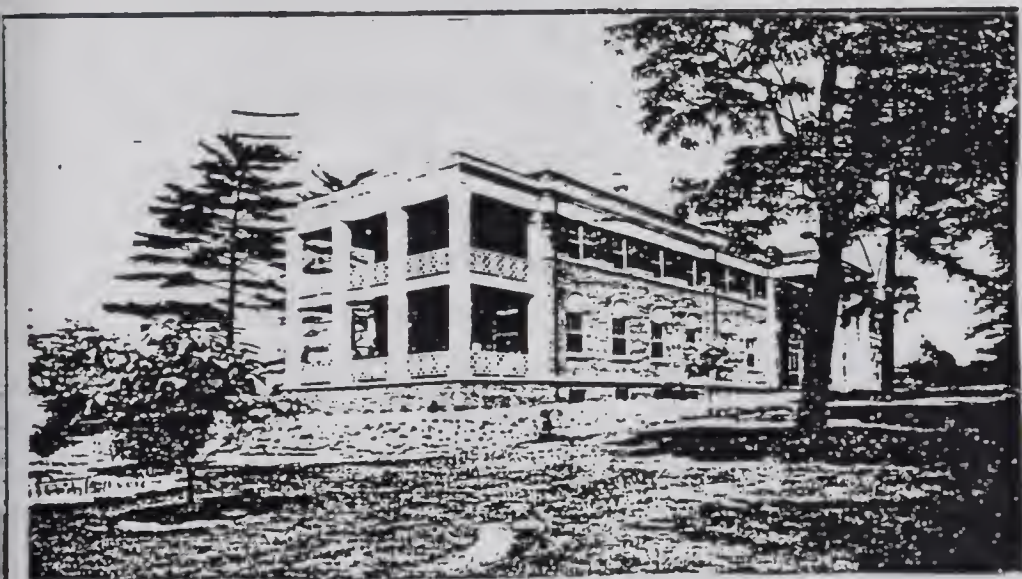

On January 4th, 1909, officers of the Order of Shepherd's of Bethlehem signed an agreement to purchase a tract of land of 37 acres in Haddonfield, NJ. Situated upon this tract was a 22 room mansion, barn and other outbuildings. A \$500. down payment was made to bind the agreement and another payment of \$8,000. was made the following June, leaving a mortgage of \$8,000. on the property. But on January, 1912, the mortgage was satisfied, giving the Order full ownership.

The Shepherd's Home was a haven for orphaned children, providing them with care, education and training for facing life on their own. The Home was also a sanctuary for grown men and women who fell upon hard times or could not take care of themselves properly.

By 1929, it became apparent that the Home was too small to accomadate all the applicants waiting to enter the Home, so the Officers of the Supreme Lodge decided to build a new, bigger and better Sheperd's Home and they did it. The new building had 46 bedrooms, a large living room, where regular services were held, a large, lighted dining room, a large hospial ward, with lights over each bed. There was also a nurses room and a doctors consulting room. A large kitchen provide all approved labor saving devices. There was a laundry, heating plant, equipped to burn buckwheat coal and storage space in the basement. There were two porches overlooking the Cooper River Drive, one on each floor. Each bedroom was provided with a bed, bureu, rocking chair, straight chair and a table. The building was completely fireproof and cost, with furnishings, about \$76,000. This new building is still standing and is currently in use to house various offices. Shown below is a postcard of the Home as it looks today.

The medal pictured below was issued and sold during the 1909-1912 era, to help pay off the mortgage and depicts the original, 22 room mansion. The medal is uniface, copper, 33 mm and holed as made. The mintage must have been low, as I have not seen another specimen since I acquired mine about 18 years ago.

(The Haddonfield Historical Society provided much of the above information).

THE SHEPHERDS' HOME, FROM COOPER RIVER DRIVE, HADDONFIELD, N. J.

NEW JERSEY AMUSEMENT TOKENS

By Bill Schopp

For anyone who collects amusement tokens, they know that it is a fun and interesting hobby. It is one of the least expensive tokens you can collect. New Jersey amusement tokens are especially fun to collect because they are so easy to find. I usually visit the Jersey Shore many times a year and come up with a variety of tokens. In my collection I have about 400-500 different New Jersey amusement tokens and there are still many more that I need.

The earliest NJ amusement tokens that I know of are the turn of the century Atlantic City tokens. Applegate's Pier issued many tokens which can be considered amusement tokens. Most are worth \$15-30, though some are worth up to \$200. Young's Pier issued many tokens and other items which Rocco DiGiacomo did an article on in the Oct.-Nov.-Dec. 1992 issue of Jerseyana.

Palisade Amusement Park in Fort Lee issued the many tokens. They issued at least 6 different tokens. They must be hard to find since I don't have any of them. Olympic Park in Irvington issued at least three tokens (one 5 and two 25). They are not very common but I have the three of them. There may be many other older tokens from other amusement parks that haven't been found or reported. Many more modern amusement parks have issued tokens like Great Adventure, Clementon Park, Bertrand Island Park, and many others.

In the late 70's, many arcades started to use modern video arcade machines. Some used tokens to play the games and others used as payout tokens good for prizes. These are the most common kind of New Jersey amusement tokens and are worth 25 to 50 cents depending on availability of the token. You can find this kind of arcade tokens still in use at many of the arcades down the shore and elsewhere in NJ. Initially these were brass tokens, then for a period in the Seventies plastic was popular, but aluminum is now the most common material. The aluminum tokens are now anodized in many different colors. The towns with the largest assortment of current tokens are the Wildwoods and Seaside Heights and Park.

I would be interested in trading for any amusement tokens I need. I have many NJ amusement tokens for trade or sale. For anyone interested in collecting NJ amusement tokens please write to me and I would be happy to help you get started.

Fislerville New Jersey Glasshouse Scrip

By Al Zaika

In addition to the four notes illustrated below, there is also a One Cent note issued by this glasshouse, under the name of John M. Moore & Co., dated July 1st, 1862. In 1863, D. Wilson Moore, brother of John, became a partner of his brother and from then on, it became known as Moore Brothers & Co. All of the 1863 notes have the same fancy reverse, with the denominations in the center. The printer of the notes is unknown.

Located in a rustic 19th century building which served as a lock tender's house on the Morris Canal, the Lake Hopatcong Historical Museum offers an entertaining and enlightening look at the history of New Jersey's largest lake. You will step back in time when the lake was actually two bodies of water and the Lenape lived along its shores. You will learn of the building of the famous Morris Canal and the forming of modern day Lake Hopatcong, its main source of water. Travel back to the era when the Lake was a tourist mecca and some 40 hotels and rooming houses graced its shores. Relive the days when thousands flocked to Bertrand Island Amusement Park for dancing and "nickel nights." The Museum is located in Landing just off of Route 80 at exit 28 on the grounds of the Hopatcong State Park. The Museum is open September 17th through November 27th on Saturdays and Sundays from noon to 4PM. Admission is free. Call (201) 398-2616 for further information.

(Editors note - Martin Kane, the president of this society is a NJES member. See his want ad in this issue).

UNITED STATES SALES TAX TOKENS AND STAMPS
BY
MERLIN K. MALEHORN
and TIM DAVENPORT

Book Review By Curtis H. Judge

A new work on United States sales tax tokens and many types of related exnumia was published in late 1993 by Jade House Publications. This volume is a further expansion on the previous works covering the subject by various authors. In 1977 when issued, Pfefferkorn and Schimmel's "Chits, Chiselers, Funny Money" became the standard reference for the tax token collector. This new effort by Malehorn and Davenport far surpasses all previous compilations and now must be considered the standard reference for the field. The book is in the 8 1/2" by 11" format, hard bound, 390 pages in length, and filled with very high quality photos of the various items discussed.

The effort of producing the catalog was a joint effort among several people. The historical sections of the catalog were prepared by Tim Davenport. They focus upon the advent and disappearance of sales tax tokens and revolve largely around the state government issuers. The technical information and listings in the catalog were prepared by Merlin Malehorn with great deal of support from many collectors. David Schenkman and Paul Cunningham were responsible for the photographic and other work necessary to provide illustrations.

The work is arranged in typical fashion with numbering system, rarity guide, varieties, grading and numerous other topics being discussed in the introduction. A clarifying discussion on "transparency" of the various plate issues is included to help the novice collector muddle through a tough area determining the cataloging of many tokens. All tokens and related items like boxes and roll packaging material are listed in the body alphabetically by state. 27 states are represented as well as large sections covering miscellaneous tax related exnumia and other related items.

For reasons the authors list, it was necessary to institute a complete numbering system in this catalog which did not co-ordinate with either of the existing systems previously published. A section called CODE-DECODE is thoughtfully included to substantially reduce the headaches involved in the transition. This section cross references the three systems -ATTS, CHITS, and SCHIMMEL on a state by state basis.

Pleasure Bay was an elegant resort that was developed and owned by steamboat magnate Thomas Patten, Sr. at Long Branch, N.J. in 1888. Its demise came during WW-I. I haven't been able to learn any thing about the Emil Groth Association. This could be a New York City group, since Patten operated steamboats from there to his resort. Can anyone out there help? The illustrated item is a celluloid disk with a metal rim. Thanks for your interest, Al Zaika.
